

OPERATION MANUAL

RECHARGEABLE LIGHTED MAGNIFIER

Fig.1

Fig.2

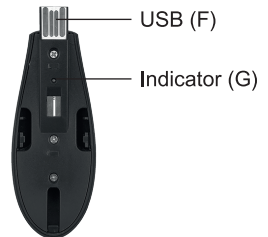

Fig.3

TO OPERATE THE MAGNIFIER:

- For magnification power 2X, use Lens (B) (Fig.1) to read.
- For higher magnification power 5X, use Lens (A) (Fig.1) to read.
- To turn on the LED (E) (Fig.2), press Button (C) (Fig.1) to turn it on, press once for full brightness, press twice for 50% brightness, press thrice to turn off.

TO RECHARGE THE BATTERY:

- Pull out the USB (F) (Fig.3) from Handle (D) (Fig.1). Charging battery by plug-in USB (F) (Fig.3) into any compatible socket, computer or power bank, suggested current 2A or below.
- Indicator (G) (Fig.3) will turn green when battery is charging, off when battery full.
